Thursday 7th · MEDIA DAY

Dear Parents and Guardians,

As we begin the winter term, we want to remind you of the importance of keeping your child at home if they are unwell. This helps prevent the spread of illnesses and ensures a healthy environment for all learners and staff.

Key Points to Consider

- Fever - Keep your child at home if they have a fever, and ensure they are fever-free for at least 24 hours before returning to school.

Contagious Illnesses- If your child has a contagious illness, such as a cold, flu, or stomach bug, please keep them at home until they are no longer contagious.

- Doctor's Note: In some cases, we may require a doctor's note to confirm your child is fit to return to school.

Your Support Matters.

Your cooperation in keeping unwell learners at home helps protect the health and well-being of our entire school community. Thank you for your understanding and support.

Best regards, **CHS MANAGEMENT**
